Allan;
Can you give me a few bullets to use in my discussion with Minister tomorrow so he can be assured we have a game plan in play.
Thanks
AR

Angus,

I've got a call in to the A/ADM at Justice but we may need that divine intervention I mentioned sooner rather than later.

George Blamers lease did not include an option for renewal. I don't know why but he never asked for one when he signed it either so despite all his baseless accusations there is a reason some leases have been renewed even though according to Justice we shouldn't have done that either.

On the same page.

Email will be sent to ²⁵⁽¹⁾ today.

I will keep you in the loop.

Fill him in.

The fact George doesn't understand his lease is not identical will become evident soon enough.

Hi Leah:

FYI

I too have been patiently waiting for word on my application.

Cheers,

Many of us holding small private hanger leases at the Whitehorse airport have been waiting nearly 2 years to get our leases renewed.

Interactions with YTG bureaucracy have been one-on-one, illogical, inconsistent, frustrating.

But then one identical outstanding lease was suddenly renewed for 10 years, while all the others are still being denied.

This is not acceptable!

All similar outstanding leases must be renewed for the same term and with the same conditions as this one.

IF YTG are encountering internal problems, leases and conditions can be amended equitably, fairly and legally at the end of that time.

I have had successful results to preliminary fundraising for legal action should it be needed.

Sincerely

Jacob George Balmer
